

Project	HOUSE IN VILLERS-LE-BOUILLET
Architects	ATELIER CHORA
Address	Villers-Le-Bouillet
Programme	Private house
About	<p>With Richard Serra's work in mind, on a long, narrow plot, the views of the countryside are breathtaking.</p> <p>The house is composed of three large sails, three large concrete sculptures and a series of thin columns supporting a first flat roof.</p> <p>The plan is a progressive walk in relation to the landscape and the garden. A large wooden box, containing the night spaces, is raised by half a level. These spaces are sometimes in relation with the living space, sometimes protected from it.</p> <p>A series of terraces allows users to enjoy the sun, to look at the garden or the distant landscape.</p>
Typology	Private houses
