

Architects

B SLASH [B / ARCHITECTS]

Description

OUR TEAM

b/ is a partnership between 3 freelance architects, Nicolas Beernaert, Alexandre Berbinschi and Bruno Bocken, all graduates from Saint-Luc Higher Institute of Architecture in Brussels. After engaging with several architecture offices and design working groups in Belgium and abroad, we united so as to make up a dynamic and multidisciplinary team based on our common vision of creation and architecture.

OUR VISION

Your project, our project!

Be it for a building or renovating project, we help you create spaces in your image! Our added value is the creation of spaces meeting your expectations in terms of comfort, aesthetics, budget and sustainability. We make a point of advising you and defending your interests from the very first meeting on.

OUR SERVICES

Besides taking charge of new building or renovating architecture projects, we also deal with related missions such as interior design, object design, energy performance or ?security-health? coordination. Our services are varied and adapted to your requests. We are always willing to grant you an appointment in order to answer your questions.

All the information is detailed on our website www.bslash.be and in the b/paper.
