GRANDI BIANCHI

Project	
Architects	BERNARD DUBOIS
Address	Paris
Programe	Series of modular marble furniture for Balice Hertling Gallery, in association with La Ville Rayée.
About	Grandi Bianchi is an ensemble of interior devices with an inherent genetic link. An elementary storage unit, four voids in a block, is affected to comply with types and formats of furniture, from one scale to an other, until the limits of a room. Logics of formal manipulation specific to digital modelling are applied to the primitive logic of hard marble assembly, that undergoes stretchings and constrictions. The variation in marble thicknesses reveals the amalgam behind the design of the object. This architectural furniture ranges from consoles to porticos
Typology	Culture
Status	Built
Conception	2011
Delivery	2011
Client	Galerie Balice Hertling
Co-author	La Ville Rayée

Avenue Albert
1190 Bruxelles
