

Architects

BUREAU FL.5.2

Description

FL.5.2 is a collective of architects and researchers composed of Lyna Bourouiba, Victoire Chancel, Carla Frick-Cloupet and Anne-Laure Iger, who embrace the diversity of architectural practices through their hybridisation. The office does not gather around a common thought but around a pooling of means as can be the case in a workspace. Thus FL.5.2 is a place with four tables, five chairs, a red bench, a small yellow carpet and a magnificent view of the Place Flagey in Brussels. The team seeks to create exchanges, to take care of the individual and collective practices of its members and to explore multi-authorship.
