

Project

CITY SQUARE

Architects

CANEVAS

Address

place d'Embourg, voie de l'Ardenne, 4053 Embourg
(Chaufontaine)

Programme

A partially covered esplanade (with a semi-covered car park, road parking and a bus stop) in a residual space between two highways allowing access to the library and cultural space. It is integrated into the urban fabric thanks to a wall of plants that carries on from the facades, the two different levels, the broader, more comfortable pavements, and thanks to the new location of bus stop that allows it to participate in the life of the square. Cooperation with Florence Fréson, sculptor, in the general development.

Typology

Landscape, urban areas

Status

Built

Conception

2002

Delivery

2007

Client

Commune de Chaufontaine

Total budget

1000000 euros HTVA
