

Architects

EMILIE BOEUR

Description

Emilie Boeur has collaborated with several architecture and landscaping offices in Brussels and Wallonia. On this occasion, she notably worked on important public projects such as the renovation of the Aquatic Center of Marcinelle. She also took part in the realization of urban studies, in particular the upgrading of the facades of the intra-ring of Charleroi (in collaboration with the landscaping office Landinzicht). Emilie is involved in the design and monitoring of new construction and renovation projects. She has acquired experience in the field of reusing materials that she strives to enhance in the design of each of the projects she is confronted with.
