CASE 12009 - GH HOUSE

Project	
Architects	FRANÇOIS ELLEBOUDT ARCHITECTE SPRL
Address	Temploux
Programe	Single family House
About	The projected dwelling integrates with the surrounding environment by its simple volumetry, a clear gauge and harmonized facade materials instead. The project is conceived in a global concern of saving of energy. Thanks to penetrations judiciously positioned according to the views and the sun, the project profits from important energetic contributions and offers a great variety of lights while guaranteeing the intimacy of the occupants. By its formal rigor, the construction is installed on the site with ease.
