
Architects

Description

INDABOX STUDIO

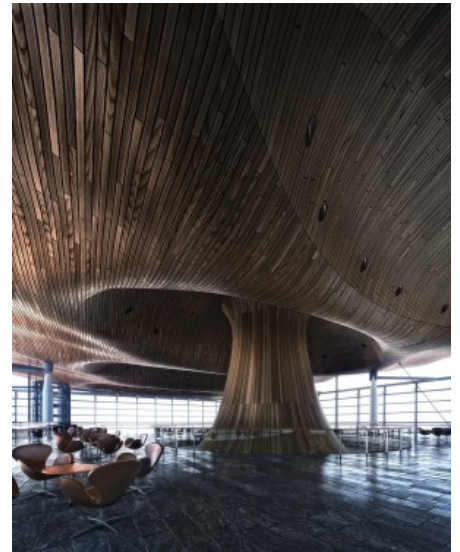

Indabox Studio is an architectural visualization specialized company. We create fixed and animated images in several application areas. Indabox Studio brings its experience to meet the needs of architects, real estate professionals, companies, designers...

We are committed to bring the architects vision to life and to elicit enthusiastic emotive response. Our passion for architecture and thorough understanding of details, materials, textures, interior design and lighting leads us to create the most memorable images.

We offer a complete range of services, from technical to strikingly realistic, the merger of CGI with photography, light and material studies.

Our team is composed of architects and CG artists specializing in architectural illustration and communication through images.

We are located in Belgium and France but we do work all over the world.

45 Avenue Wielemans Ceuppens
