

Project

## MEANDER

Architects

LAURA MUYLDERMANS

Address

l'univers, \*\*\* Meander

Programme

Meander is a world of which we could feel the immensity and imagine every day what it should be, letting the life that animates it spring forth. A world to wander and dream, where it is possible to become other, to contemplate the sky and what is happening. A world that may seem far from our own, but whose magic is already with us, if we only look at it. Meander is an invitation to re-read our everyday life in all its magnificent and magical aspects, to inject this into what could be our futur.
