# FLOATING METAL

| | |
|---|---|
| Project | |
| Architects | LUC SPITS |
| Address | Warsage |
| Programe | stand-alone dwelling |
| About | The dwelling stands in a semi-rural environment exposed to flooding. This particular feature has guided the project from the start. The structure rests on piles. It is entirely made of steel and aluminium, except for the concrete slab and piles.<br>The frontage looks very closed-in. Conversely, the rear part is open and ethereal creating a sense of freedom and size stretch. The uncluttered style makes the whole structure appear industrial, open and refined at the same time. |
| Typology | Private houses |
| Status | Built |
| Conception | 2000 |
| Delivery | 2000 |
