# MADE ALCHIMIE CRÉATIVE S.P.R.L.

Description

Interior Design & Architecture  
Object Design & Custom made furnitures  
Scenic Design & Set Design  
Graphic Design

Maxime De Campenaere and Marie Degroote graduated from Institut Saint-Luc in 2002 and create MADE alchimie créative s.p.r.l. in 2005.

The projects follow each other up quickly and the orders surpass the boundaries of interior design. MADe designs numerous extensions and new constructions.

Passionate, curious and versatile, they are rapidly expanding their expertise in various fields such as object design, graphic design and set design.

Nostalgic of the completeness in Art Nouveau, they play the role of artistic director and surround themselves with talented people from other fields.

MADe brings sharp responses without imposing style. The client is in the middle of the project and the project is custom made.
