
Architects

MARIO GARZANITI

Description

We want to transform the whole while acting on the part; to install moments of eternity in the transitory one of the daily newspaper; to pose poetic reference marks which refer so much to the history than with the relationships of the man with the universe. We seek to reveal the common concern present behind the particular fact. The universal one under the anecdotic one.

Creation

1983

rue Wazon 95
4000 Liège
