Programme

Newly constructed, single storey extension

About

Located to the rear of an existing Victorian terrace, this newly constructed, single storey, building, is located within the grounds of the original house and provides a working environment for two designers.

OTHER PROJECTS :

With a tight budget the clear brief of natural light, robust materials, and storage lead to a simple plan arrangement of two flanking walls that integrate storage and bench seating, freeing the centre of the plan for a wide variety of working arrangements.

Warrington Crescent
- 2016 2018
- Londres

Constructed between July 2017 and December 2017.

Blurton Road
- 2016 2018
- Londres
