BSTORE FURNITURE

Project	
Architects	MORALES FINCH
Address	Londres
Programe	Store furnitures and installations
About	Over a period of 6 years a wide range of built projects were undertaken, ranging from pieces of store furniture, installations created in collaboration with the owners, London Fashion Week presentations and events in which the brand took part. A key theme of all such projects was the potential for elements within them to have a duration of their own, meaning they could be used in the future and have a language of their own when combined in new ways.
