

Architects

NONANTE ARCHITECTES

Description

NONANTE architectes is an architecture office based in Brussels.

NONANTE's work concerns all areas of architecture, developing projects of various types and scales centered on the enhancement of the existing, putting human and concerns at the heart of its achievements, favoring teamwork and collaborations with other architects.

The heart of our work as an architect is the realization of private projects such as the construction, extension and transformation of houses and apartments but we are also developing public projects of housing, schools and nurseries anchored in a dense urban fabric.
