About

Changing eating habits of not just a company, but of an entire building? That's the story of Bambino Canteen. A kitchen concept with a focus on fresh, local, and seasonal food. Breakfast, take-out or after works, group meetings or tête-à-têtes, in this hybrid space Bambino serves it any time of the day.
Combining functionality and advanced aesthetic research, in each of its locations Naïf have allowed Bambino to unfold a little extra soul that makes all the difference?
