

Project

HOUSE 03

Architects

QUENTIN GÉRARD ARCHITECTE

Address

avenue Albert, 20, 5900 Lille

Programe

Single-family house with garage and garden

About

The house is located in a largely landlocked wasteland, it will seek the template of the factory with an apparent metal structure to offer a maximum internal volume. The large openings provide the living rooms with natural light until the evening and make an important link with the planted outdoor spaces. The layout of the plan and the contrast of the interior coverings clarify the functions and ensure different privacy situations. The aluminum cladding of the facades completes the marked presence of existing materialities and increases the contribution of light to the place.

Typology

Private houses
