

Project

# GRAND-PLACE OF BRUSSELS LIGHT AND SOUND SHOWCASE

Architects

RADIANCE 35

Address

Grand-Place, 1000 Bruxelles

Programme

Grand-Place of Brussels light and sound showcase

About

Light:

The thinking behind the lighting scheme is to preserve the site's heritage, environment and spirit, through such principles as the creation of a "living" atmosphere within the space, by working as much as possible from the inside of the buildings and highlighting their facades to emphasise the combination of uniform and singular features within the Place.

Sound:

The beauty of an urban site is also expressed by the quality of the sounds that are perceived within it. Each day, at midday and at nightfall, a sound event will mark time on the Grand Place and create a genuine identifying marker.

Typology

Landscape, urban areas

Status

Built

Conception

2006

Delivery

2012

Client

Beliris (Service Public Fédéral Mobilité et Transport)
