About

This proposal for the Bauhaus Museum offers both a meaningful place for the Bauhaus collection, a laboratory for artistic expression, and a new kind of meeting place. Assembling is the key notion for the project. The team assembles very specific profiles (architects, a landscape designer, a graphic designer, an artist, an interior designer, a curator and a structural engineer), structures (previously researched within the framework of Gesamtcollage) and environments.

OTHER PROJECTS :

GESAMTCOLLAGE, exhibition FRAC
centre, Orléans
