Address	Steensedijk 495, 8400 Ostende
Programe	Extension for a school of 16 classrooms and administrative offices
About	This school extension comprises 16 classrooms and administrative offices. Its location bolsters the organization of the school campus around a central esplanade by taking into account the buildings to be razed or built. The school?s ?open character? is marked by the maintenance and/or reinforcement of interesting open perspectives. The programme is arranged in flexible modules of approx. 610 to 640 m2, able to accommodate a cluster of 8 classrooms, administrative offices, a bicycle park, and a covered multipurpose outdoor area. The arrangement of these modules around a covered esplanade or ?agora? makes it possible to easily add extensions in the future, without any important additional costs. This ?agora? constitutes the meeting space of the entire school as well as the place where pupils and teachers converge, on foot or by bike. The stairs and the footbridges leading to the classrooms are located in the continuation of this covered ?playground?.
Typology	Education
Status	Ongoing building work
Conception	2011
Area	1920
