

Project	<b>SUPERNOVA</b>
Architects	METAMORPHOSE - COLLECTIF D'ARCHITECTES
Address	Avenue des Ortolans , Boitsfort
Programme	Complete renovation of a single-family dwelling with medical office
About	<p>The project is based on a reorganization of the habitat along two spans and structuring axis.</p> <p>The left span has spaces crossing from the front to the rear facade for a connection of both horizontal and vertical spaces. This span is the span of connection and circulation. The vertical opening, going up to the roof, makes it possible to take advantage of the contributions of natural light varying throughout the day.</p> <p>The right-hand span is made up of introverted benefit spaces that can be used to sequence spaces and provide privacy for everyone; each moment. The right span is bordered by the technical zone gathering all the water features.</p> <p>On the ground floor, the right span translates into a flexible space allowing a complete fluidity of the living space. The central space can open or close as needed.</p> <p>Parallel to the search for verticality and inter-floor connection, each level is assigned to a specific function. As a result, from top to bottom: the professional part, the floor of life and meeting, the floor of the children, the floor of the parents. Each of these levels welcomes a freer space, taking place on the balconies, and allowing interactions between the different functions.</p> <p>To accentuate and streamline these connections, the balconies slide to give way to double heights, breaking the horizontality of the facade.</p>
Typology	Private houses
Status	Built
Conception	2017
Delivery	2019
Client	Aurélie & Grégory
Area	275
Stability	Matriche
Others	Goerges De Kinder

382, avenue de la couronne
