The exhibition showcases the book Architectures Wallonie-Bruxelles Inventaires #1 Inventories created by the Architecture Unit of the Wallonia-Brussels Federation and Wallonie-Brussels Architectures. The book entrusted to the orthodoxe collective is the second volume in the collection initiated in 2010. It sets out to paint an up-to-date picture of recent architectural developments in Wallonia and in Brussels and to illustrate the commitment shown by the public authorities and private individuals in the search for an architecture that is in step with its time and with concerns to improve our living environment.

The exhibition, designed by the editorial team, reproduces twelve pictures that Maxime Delvaux took to realise the book. These are presented as images, not as documentation of the twelve projects. Through the photographer's eye they reveal the specificities of images, whether considered independently or together, in what unites and separates them. Office and projects

Catalogue

Building on the review of more than a thousand projects inventoried on a poster, the orthodoxe collective paints a portrait of architecture in Wallonia and Brussels through the exploration of five topics: contemporaneity, representation, mediation, ecology and cosmopolitics.

Enriched by various contributions from Belgian and

foreign architects, researchers and critics, Architectures
Wallonie-Bruxelles Inventaires # 1 Inventories 2010 ?
2013 eventually presents a selection of 30 projects ? housing,
community equipment, public spaces, facilities, publications,
cultural programs and citizens' initiatives ? pictured under the
eye of Maxime Delvaux. Technical information Furniture Three
pieces of furniture, each measuring 55 cm wide, 68 cm long
and 80 cm high on castors, form a unit in which the stock of
books is stored and on which some works are available for
consultation. During transport, assembly and dismantling of
the exhibition, they also serve as transport and storage for the
posters. The furniture is placed in rows but can be arranged
more freely if space does not permit. Stacks of posters
Depending on the location, one to twelve stacks of
double-sided 50 x 62 cm posters featuring twelve photographs
from the publication are placed on a base on the ground. They
can be taken away by visitors. Poster Up to twelve different
posters can be displayed on picture rails or walls around
furniture and stacks. This position is optional and will depend
on the scenographic choices related to the exhibition
venue. Loan conditions During opening hours, the exhibition
must be supervised. Itinerary
