

AGWA: BIENNALE IABR - ROTTERDAM

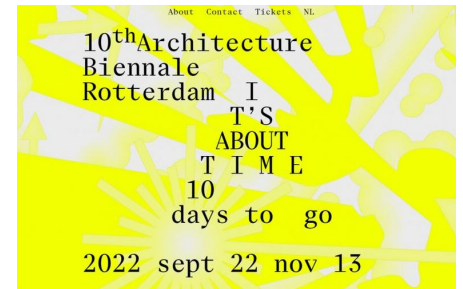

The 10th edition of the Architecture Biennale Rotterdam will take place from 22 September to 13 November 2022 in Rotterdam's western harbor area. The exhibition *IT'S ABOUT TIME*, curated by Derk Loorbach, Véronique Patteeuw, Léa-Catherine Szacka, and Peter Veenstra in collaboration with Theodora Gelali, will be presented at the Ferro, an imposing former gas storage facility.

The exhibition showcases the work of some 50 spatial designers, architects and researchers who are addressing the future of our planet in an inspiring way. Among them, AgwA with their project *Verbiest*.

In the nearby Keilepand, the exhibition *FUTURE GENERATION*, under the artistic direction of curators Hanna Prinssen and Lindsey van de Wetering and in collaboration with Maria Christopoulou, will show a selection of graduation projects by students from the Netherlands and Belgium. Among them, students from the La Cambre-Horta/ULB
