FENÊTRE SUR #3

After a first book *Pédagogies de l'espace* devoted to Jean-François Pirson and his pedagogical work centred on space, the ArchitectureUnit is continuing this collaboration by dedicating the third volume of its collection to the walks and workshops he has been leading since 2010.

In his workshops, this artist-pedagogue invites us to experience a "direct body-to-body with the territory". Starting from a space to be explored predefined by him, each participant is invited to trace his or her own path, literally and figuratively, "between the world and oneself", "inside - outside".

This work extends the intentions developed in the first volume: to open up fields; to stimulate plastic, kinesthetic, playful and human experiences accessible to all; to share them.

The book is available in all good bookshops from 26 September 2020.
