L'ESCAUT: ATELIERS PITCHOUNS

The Villa Noailles regularly organizes workshops in family. The main objective is to gather the generations around a creative project accompanied by an invited artist. For the sixth edition of the Ateliers Pitchouns, L'Escaut will participate in the Architecture Workshop from December 19th till December 22nd 2016.

This project between the Villa Noailles and L'Escaut extends the relations established within the framework of the exhibition Landskating which was presented in Hyères last February and to whom WBA had the opportunity to contribute.
