

NEW CCP EXHIBITION: WALLONIA-BRUSSELS - BASEL - BARCELONA

Building on the success of the previous edition with Barcelona, WBA has renewed its partnership with Cities Connection Project and is preparing a new exhibition, this time presenting 20 projects by architects from Wallonia-Brussels, 20 projects by architects from Basel and 20 projects of architects from Barcelona.

This will be the 6th edition of the "Cities Connection Project" cycle, curated by Nicola Regusci and Xavier Bustos. The aim is to create a network of cultural connections between cities and regions sharing an important architectural tradition, while at the same time highlighting contemporary architecture and urban planning. The cities of Zurich, Mendrisio, Geneva, Lausanne, Barcelona and the Wallonia-Brussels Federation have been involved in previous editions.

For this edition, the architects will meet around shared living spaces. We wish to present projects that contribute to social life and that are at the same time living spaces and places for exchange.

The first show of the exhibition will take place in Brussels in October 2021. It will then be presented in Basel in the spring 2022 before starting its international tour. The 20 offices/projects from Wallonia-Brussels

A229 - Cimeconductive - Special school for children with a type 4 disability
