NEY&PARTNERS NOMINATED FOR THE CONCRETE AWARD NL 2021

Traffic bridge North-West Brainport nominated for the Concrete Award NL 2021, Eindhoven (NL)

With 56 entries for this prize, only 3 works have been nominated in the category Civil Engineering including the Traffic Bridge North-West Brainport project designed by Ney&Partners. The jury appreciated the ancient bridge concept applied with a contemporary vision. Furthermore, the jury praised the project's form-finding of the correct arch geometry, a concept where as little material as possible is used in an optimal way.

The winner of the Betonprijs NL 2021 will be announced on November 18.
