ROUND TABLE: FREESPACE AND BORDERS - VENICE BIENNALE

Carlo Menon (architect, researcher and co-founder of the review Accattone) will moderate a round table (in French) which will take place in the Pavilion of Belgium on May 25th at 11am.

Four invited architects will express themselves on the role of public authorities in the era of the auto-promotion, media overexposure, image, international mobility, immaterial work... Pierre Hebbelinck, CENTRAL, Rotor and Traumnovelle will speak about their relation to the border in order for the public to understand better the question of the export of this cultural discipline.
