NOTAN OFFICE

Architectes

Description

NOTAN OFFICE is a Brussels based architecture practice founded in 2014 by Frédéric Karam.
Aware of the specificity of each project, the studio often collaborates with others and works on projects in Switzerland, Lebanon, England and Belgium.

The work of NOTAN OFFICE is socially and programmatically committed. With a rational approach, the studio boldly manipulate the established, resulting in a unique architecture. Whatever the scale, the approach is contextual and seeks to enhance the essence of a place, the people and their concerns in line with today?s society.

With sustainability in mind, architecture needs to be generous and let the users make it their own.
NOTANs projects offers sensorial experiences; from spaces to material, the projects are textural.

CrÃ©ation

2014

AssociÃ©s
